Les retenues :
à droite du signe
« égal »

1 6 4
x 3

4 9 2

The diagram shows a multiplication problem on a grid. The multiplier '3' is placed in the second column from the right. The multiplicand '164' is placed in the first three columns from the right. A blue 'x' is placed in the first column from the right. A blue horizontal line is drawn below the numbers. The result '492' is written below the line. Two red diagonal lines are drawn through the last two digits of the result, '2' and '9', indicating they are not yet calculated.
